The new Strategy 2030 is building on existing capabilities in Inclusive Eye Health (IEH), Inclusive Humanitarian Action (IHA) and Community-Based Inclusive Development (CBID) and expands them with a systems-oriented approach to Community Support Services and Systems (CSS)

Approach

Build on our legacy and expertise Continuprogram leaders

Continuation of IEH and CBID programs and thought leadership with a **global portfolio** of countries

Continue ongoing investments

Increase focus and extend programs in IHA through partnering with Organizations of Persons with Disabilities (OPDs) and the humanitarian sector in program delivery

Expand with focus

Drive systems strengthening through advocacy at national/ state/ community level to anchor support for persons with disabilities in laws, regulations and policies

Impact

Ensuring people with disabilities and their organizations fully participate in social, economic and political life of their communities and have access to effective support when needed

Removing barriers when accessing assistance and protection and ensuring meaningful participation of persons with disabilities in humanitarian decision making

Build robust and resilient support systems that offer available, accessible and affordable support. Empower persons with disabilities to leverage those

Key Strategic objectives to achieve with new strategy

Maximizing Impact

Sustainable, long-term impact for Persons with Disabilities

Being in Sync

Staying true to CBM's brand values through organizational alignment

Ensure Viability

Both financial and operational viability to ensure continuity in a challenging external environment

Funded by Individual Giving & Institutional Donors
